Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 2, 4 and 6-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 16 and 17 the limitation "an external surface with a size that is greater Than various kinds of articles used in cosmetics," Is indefinite and non-limiting. Since applicant has failed to specify what size or range of sizes encompass the "articles" and has further failed to specify what size or range of sizes the carrier body would need to be to accommodate these "articles", it is unclear what size limitations if any are placed on applicants device.

Claim 10 also is indefinite for the reason stated above with respect to its claimed size limitation.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 4, 6-10, 12, 14, 16, 17 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Baird 5,842,584.

Baird teaches a holding system comprising a carrier body 15, fastening means 13, 26, an elastic strap 17 attached at a plurality of locations with an opening at each end (figure 2) or a pocket (figure 4E), and longer and shorter portions (figures 4F and 5).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1, 2, 4, 8-13 and 15-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Banoun 4,901,464 in view of Dent 4,765,472.

Banoun teaches a carrier comprising a carrier body 98, a first strap 80 attached at a plurality of locations with an opening at each end, a second strap with pockets 100, a cover 120, and an aligned pocket 122. Banoun however does not teach an attachment system which is equivalent to that claimed by applicant. Dent teaches a similar carrier in which an attachment system in the form of hook and loop fasteners 40, 44, are sewn in the carrier at each end to allow the carrier to be attached to an object such as a bucket. To modify the carrier of Banoun in the manner as taught by Dent to allow it to be secured to an object such as a bucket would have been obvious to one of ordinary skill in the art. The materials set forth in claims 13 and 20 are deemed obvious since applicant failed to challenge or argue the rejection set forth in the prior office action in paragraph number 7.

Response to Arguments

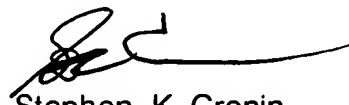

7. Applicant's arguments with respect to claims 1, 2, 4 and 6-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen K. Cronin whose telephone number is 571-272-4536. The examiner can normally be reached on M-F 8:00am-5:30pm.
